Introduction	Converting a Character
This booklet is intended to help you preserve the best of your favorite characters as you move through the worlds of Morgalad. Various tables and formulas are provided to inform you of how to properly convert your old Advanced Dungeons and Dragons characters and creatures to be used in the Morgalad Fantasy Role Playing Game.	Seeing as these converted characters are not standard Morgalad RPG Player Characters it is recommended that a prefix of Specialist be added to the characters profession. To help distinguish the difference between Native Morgalad Player Characters and Converted Morgalad Player Characters. Also AD&D Character classes will be converted over to Morgalad Character Professions. (Ie. Fighters & Paladins are Labeled as Warriors by profession. Clerics & Druids are Priests, Magic-users & Necromancers are Magi, and Bards & Thieves are now Rogues.)
